APPLICATION SUBMITTAL PROCESS

- Packets are available online at [www.nelcdc.org](http://www.nelcdc.org)
- Deadline requirements are strictly enforced
- Bid Packets must be sealed and delivered to the North & East Lubbock CDC office: 1708 Crickets Ave. Lubbock, TX 79401 (the Lubbock Housing Authority – downtown Lubbock)
- Upon closing, all received bid information will be provided to the NELCDC Housing Construction Committee for review and selection.
- The Committee will review and recommend a contractor be awarded the project.
- The NELCDC Board of Directors will pass a Board Resolution to Award the bid.
- All applicants will be notified in writing of the outcome of the competitive bidding process.

Disclosures:

- Construction will be funded by grant funds allocated to the NELCDC via the City of Lubbock Community Development Department from federal grant funds from the HOME Investment Partnership Program.
- The NELCDC Housing Construction Committee will review all bids and select the bid that offers the best value
- NELCDC, as the property owner of the King’s Dominion Subdivision, reserves the right to reject any or all bids. All qualified bidders will receive consideration for AWARD of contract without regard to race, color, religion, sex, familial status, disability, or national origin.
- The NELCDC reserves the right to reject any or all bids, reject any particular item on a bid, to waive immaterial formalities, and to accept the bid that offers the best value to the NELCDC and its intended clientele, who are first-time homebuyers. Unless otherwise specified herein, the NELCDC may award the bid either item-by-item or on an all-inclusive basis for any items shown on the bid form.
- All bids are evaluated for compliance with specifications before the bid process is considered. Failure to comply with the listed General Conditions may result in disqualification of the bid.
- All information provided in a bid shall become property of the NELCDC. However, NELCDC will not use any information submitted, such as plans, without express written consent from the contractor.

REQUEST FOR PROPOSAL (BID) FOR ONE (1) NEW SINGLE FAMILY HOUSING UNIT
KING’S DOMINION PHASE II, LUBBOCK, TEXAS

**HOUSING UNIT #1 SPECIFICATIONS**

- Proposed New Construction; 3 bedrooms, 2 bath, 2 car garage
- Approximately 1,300-1,400 sq. ft. of living area
- Standard “wood framing for exterior walls. (16” centers or 24” centers)
- Front facing north (see 1822 E. Harvard for example)
- Ensure all setback requirements are met for the construction on the lot
- Must adhere to King’s Dominion deed restrictions *bids requested for 100% masonry

Legal Description and Legal Address:
- 1820 E. Harvard St. Lubbock, TX 79403
- Lot size: 60ft. x 110 ft.
- Kings Dominion Lot 48

Please proceed for general requirements. Contractors must verify all measurements. The NELCDC will have a written and signed form for all selections made. It is highly recommended the builder also have a written and signed confirmation page for all selections made by the homeowner or NELCDC. *Note: NELCDC will be the homeowner unless there is a purchase agreement in place by a prospective homeowner.

**CERTIFICATION:** The attached bid has been reviewed and found to be complete and cost reasonable. The proposed method of construction and the materials specified are sufficient to bring the property into compliance with all applicable federal, state, and local standards by making the property decent, safe, and sanitary through the correction of all deficiencies related to the basic health & safety needs.

**Date Out to PUBLIC BID:**

May 2, 2017

Inspector: Rey Arias dba: Built-Rite Inspections
(806) 789-4319 or (806) 771 - 1556 (talk or text)
email: builtriteinspectionstx@gmail.com

*This particular NEW CONSTRUCTION IS: *A SINGLE-FAMILY RESIDENTIAL HOME. 3-Bedrooms, 2-baths, kitchen, living room and washer-dryer closet area.
The entire structure is approximately 1,300 to 1,400 square feet of living space and an attached 2-car (doubled sized) garage.

APPROVED BUILDER:
If you are selected as the bidder that represents the best value, you (and your company) will be required to complete a BUILDER APPLICATION through NELCDC (North & East Lubbock Community Development Corp.) which may include a back-ground investigation on the applicant.

PAYMENT PROCESS:
* Builder is required to start the project and be financially capable to get to at least 25% complete of the over all project.
Inspection and draw request is conducted for WORKMANSHIP, STANDARD CONSTRUCTION PRACTICES and CITY OF LUBBOCK-BUILDING CODE REQUIREMENTS.

* 1st Draw: (25%)  * 2nd Draw: (25%)  * 3rd Draw: (25%)
* 4th Draw (FINAL): (15%)
10% is retained to ensure no MECHANICS LIENS are placed on the project. It is withheld for at least 30-days. After 30-days, the final 10% retainage of the bid amount is released to the APPROVED builder.

WARRANTABILITY - RETURNS FOR CORRECTIONS AND REPAIRS
* NELCDC expects to have a warrantability period to the builder and its sub-contractors for workmanship for a 1-year period from the date of the FINAL INSPECTION.
(* Upon an inspection by NELCDC and / or its contracted inspector)
IT IS THE BUILDERS' RESPONSIBILITY TO VERIFY THE BID WITH THE NEW CONSTRUCTION PLANS

<td>GENERAL REQUIREMENTS</td>
<td></td>
</tr>
</tbody>
</table>

* NOTE: FOR ALL SAMPLES SELECTED BY HOMEOWNER, IT IS HIGHLY RECOMMENDED THAT THE BUILDER HAVE A "WRITTEN and/or SIGNED" CONFIRMATION METHOD OF SAMPLE SELECTION BY HOMEOWNER * ALSO, THE BUILDER IS TO SUPPLY AMPLIFIED AMOUNTS OF SAMPLES TO SELECT FROM AND HOMEOWNER MAY MAKE SELECTIONS FROM THEIR OWN LOCATIONS

a.1 PERMITS AND FEES
Apply for, post on job site and pay all required fees for building, plumbing, electrical and mechanical permits. (MUST INCLUDE ON LOT A LOCATION FOR A SET OF PLANS)

a.2 FIRE EXTINGUISHER – HOUSEHOLD
Purchase and install a 5-lb, UL APPROVED, ABC multi-purpose, Dry Chemical household rechargeable fire extinguisher mounted on the wall in the kitchen.

a.3 PRE-TREATMENT OF SOIL FOR TERMITES
Have a State Licensed Pest Control company complete a TERMITE PRE-TREATMENT ON THE SOIL WHERE THE STRUCTURE will be built.

a.4 INSURANCE REQUIREMENT
Purchase "BUILDERS-RISK" insurance policy for THIS construction project. Supply to NELCDC an "Insurance Binder" of the said coverage. MINIMUM of $150,000 General Liability and / or enough to cover the BID AMOUNT.

a.5 FEES: PRO-RATA
Ensure COMPLETE payment of ALL pro-rata fees that apply to WATER, SEWER, PAVING and any other fees associated with this construction project. (Required by the City of Lubbock)

a.6 UTILITIES
ELECTRICAL: INCLUDE Temporary supply pole service for the duration of the construction. * CITY OF LUBBOCK: BUILDING (ELECTRICAL) PERMIT REQUIRED General contractor to supply all utilities (elect., and water) for the duration until the FINAL inspection.

a.7 PROPERTY LINE SURVEY
Have a TEXAS LICENSED REGISTERED PROFESSIONAL LAND SURVEYOR complete a land survey to determine the property boundary lines. The surveyor will certify that the buildings and other improvements, alterations, and repairs to this property that exist at the time of the survey are not in violation of laws, or other restrictions, or city codes. Submit a copy of the survey and drawing (IF applicable) showing the property lines, existing fence location, property corners, existing structure locations and trees (IF applicable). SUBMIT A COPY TO NELCDC.
a.8 PLANS: SUPPLY

Builder is to supply a selection of plans to the prospective homeowner OR NELCDC representation a MINIMUM of 3-choices should be made available to the owner OR NELCDC and once selected, the owner or N.E.L.C.D.C representative is to SIGN OFF on the plans selected BY them. Once the selection IS made, the BUILDER is have 5-sets made of the plans.

It is the BUILDERS RESPONSIBILITY TO PROVIDE PLANS to the City of Lubbock - Building Inspection department, 1-set of plans ON-SITE of the new construction, 1-SET of plans to NELCDC and 1-set of plans for the assigned INSPECTOR.

II. B. EXTERIOR (Footing, Foundations, Plumbing Rough, Electrical Rough, Wall Construction, Roof construction and Finish, Fencing, Doors and Windows, Fascia and Soffit construction and finish, and all other work related to EXTERIOR)

* NOTE: WHERE THE PLANS SUBMITTED AND THE SPECIFICATIONS DIFFER, THE BID SPECIFICATIONS WILL SUPERCEDE THE PLANS *

b.1 1 - FOUNDATION: CONCRETE FOOTING AND FOUNDATION

FILL SOIL: BRING IN SOIL TO THE PROPER HEIGHT AS REQUIRED BY CODE. FINISHED FOUNDATION IS TO BE A MINIMUM OF 12" higher than the street, curb, gutter, etc. (CONFIRM PROPER HEIGHTS with the City of Lubbock-Building code department.) FOOTING: Dig out and construct the properly sized footing for the structure. (SEE PLAN for specifics if NOT noted. Comply with the City of Lubbock-Building Code department for required size. Ensure to lay rebar (horizontal and vertical) in footing channels, set on "chairs" and properly secure at ALL connections. ENSURE THAT ALL FOOTING CHANNELS ARE CLEAN and have the PROPER DEPTH for the structure being constructed. Vertical rebar every 24" o.c. (tie-ins to slab * CITY OF LUBBOCK-BUILDING INSPECTION required PRIOR to pouring concrete*

2 - PLUMBING ROUGH * CONSULT THE PLANS*

Have a TEXAS LICENSED PLUMBER conduct the following:

Rough-in the PLUMBING supply and drains (as specified in the supplied plans), SLEEVES all the PLUMBING SUPPLY LINES at least 12" beyond concrete in the SOIL and over the concrete. * PRIOR TO COVERING CITY OF LUBBOCK-BUILDING INSPECTION (PLUMBING INSPECTION REQUIRED *

3 - CONCRETE SLAB: * CONSULT THE PLANS*

SOIL: Cover and LEVEL out all soil over the foundation location. Form up and pour the concrete foundation slab. Use FIBER-MESH concrete OR properly install WIRE-MESH for adhesion. The concrete slab is to be level THROUGH-OUT. *CITY OF LUBBOCK-BUILDING INSPECTION required PRIOR to pouring concrete*
b.2 EXTERIOR WALL CONSTRUCTION (CONSULT PLANS)  
2" x 4" on 16" or 24" on center  
FRAMING: STANDARD STICK WOOD FRAME CONSTRUCTION  
* SILL PLATE: Treated wood  
* SILL PLATE ANCHORAGE:  
Anchor the sill plate as required by the building code. (At the corners and every 6")  
Frame up the exterior walls. Include treated wood on the sill plate and a double plate at the top. Properly frame header window and door openings. (*NOTE: Any spans over 9’ require ENGINEERE LAMINATED BEAMS). Ensure proper wall wall bracing where required per the BUILDING CODE.  
* Install OSB wall sheathing on the exterior on ALL the exterior walls.

b.2 EXTERIOR WALL CONSTRUCTION (CONSULT PLANS)  
2" x 4" on 24" centers  
FRAMING: STANDARD STICK WOOD FRAME CONSTRUCTION  
EXTERIOR WALL FINISH: BRICK  
ALLOWANCE: $450-$500 per thousand  
INCLUDE THE HOUSE NUMBER INSERT INTO THE BRICK - FRONT  
Include all BRICK TIES properly secured / anchored to the wall studs.  
MAXIMUM SPACING: (PER BUILDING CODE): 2 - SQ. FT. from each other.

b.3 ROOF CONSTRUCTION  
* CONSULT THE PLANS*  
Frame in the roof, with properly sized LUMBER for RAFTERS and ceiling JOISTS.  
ALL WOOD ROOF DECK IS TO BE SECURED WITH "METAL CLIPS" as required per code at the proper dimension separation locations, IF REQUIRED by deck dimensions. Roof construction is to include the COVERED PORCHES (Front and Back). Consult plan for dimensions INCLUDE ALL PORCH POSTS per plan specifications. (If NOT specified, porch posts shall be separated by a MAXIMUM of 6’ apart)!6:12 roof pitch  
RAFTERS and JOISTS TO TOP PLATE CONNECTIONS:  
Secure the rafters / joists to the top plate connections using METAL TIE CONNECTIONS or the minimum nail requirement per the BUILDING CODE at EACH rafter location in addition to what is REQUIRED by the City of Lubbock - Building code department.

b.4 PLUMBING TOP-OUT  
* CONSULT THE PLANS*  
Have a TEXAS LICENSED PLUMBER conduct the following: TOP OUT all the plumbing drain vents over the roof, properly secured in place with manufactured approved adhesives and connectors. Ensure proper KNOCHING and BORING, not to exceed BUILDING CODE REQUIREMENTS. Ensure that ALL plumbing (supply and drains) are properly protected at all framing locations with NAIL GUARDS. All drain vent terminations over the roof should be according to: City of Lubbock Plumbing code requirements. All drains and supply are to PROPERLY SIZED.  
* ANY EXPOSED SOIL LOCATIONS, WHEN FINISHED, IS TO BE COVERED * COVERED. * All drains are to be properly TRAPPED.  
* PRIOR TO COVERING, CITY OF LUBBOCK-BUILDING INSPECTION (PLUMBING INSPECTION) REQUIRED.*

b.5 ELECTRICAL ROUGH  
* CONSULT THE PLANS*  
Have a TEXAS LICENSED ELECTRICIAN perform the following:  
Rough in ALL electrical associated with NEW CONSTRUCTION as REQUIRED per the City of Lubbock - ELECTRICAL building code, to included (but not limited to):  
SMOKE ALARMS & CARBON MONOXIDE DETECTOR; SMOKE DETECTION: 1-in each bedroom outside of sleeping areas-hall areas, and in the living area.  
All are to be INTER-CONNECTED to sound-off simultaneously. CARBON MONOXIDE:  
Include at least 1-CARBON MONOXIDE detect OUTLETS: TAMPER PROOF yokes.  
G.F.C.I.:  
(Ground Fault Circuit Interrupters) required at:  
KITCHEN; Over all counter-top locations (see Electrical code requirement for spacing and distances for each). BATHROOM: 1-GFCI for each bathroom. EXTERIOR: 1 G.F.C.I. outlet for the front and back of each unit. 1-G.F.C.I. by the exterior A/C condensing unit for each unit.  
* ALL GARAGE outlets to be G.F.C.I. protected.*
b.5 ELECTRICAL ROUGH (continued)
OTHER ELECTRICAL: All other (NON-DEDICATED OUTLETS) to be A.F.C.I. (Arc Fault Circuit Interrupters) type of outlets with dedicated breakers in the main panel box.

ROMEX WIRING: All properly sized for equipment served with the properly sized breakers. (No doubling up of circuits at breaker locations). *NOTE: If ALUMINUM wiring is used, ensure that all connections have ANTI-OXIDANT COMPOUND at the terminal connections * (Unless it is NOT required by the manufacturer). Secure all wiring within the proper distances of all junction boxes. Ensure that each junction box does NOT exceed the maximum "BOX FILL calculation"

GROUNDING: Main GROUND ROD and grounding connected to the foundation STEEL.
*NOTE: WIRING PENETRATING ALL TOP PLATE LOCATIONS MUST BE SEALED
(with FOAM or other approved means) for FIRE BLOCKING. * CITY OF LUBBOCK-ELECTRICAL INSPECTION required PRIOR to covering up *

b.6 INTERIOR WALL FRAMING
* CONSULT THE PLANS*
Standard wood wall framing. 2” x 4” on 16” or 24” centers and where applicable, 2” x 6” walls at plumbing drain vent locations where required, on 16” centers. All walls properly secured below double-top plates and at sill plates. Properly header door openings at all locations.

b.7 EXTERIOR FINISHED CONCRETE: CONSULT PLAN FOR SIZES, AND LOCATIONS PARKING SLAB: INCLUDE THE SIDEWALKS, APPROACH AND CURB CUT. Form up and pour concrete DOUBLE-APRON DRIVEWAY from the street end. BACK-FILL: Level out, WET DOWN prior to pouring concrete.

* CONCRETE: USE FIBER-MESH CONCRETE or PROPERLY INSTALL WIRE MESH * Driveway concrete:
Driveway should be at least 4” to 3-3/4” thick (3,000 #), sloped so water will run away from the center and have a smooth (NON-SLICK) broom finish. Construct EXPANSION / SCORED JOINTS at 10” intervals. Include all back-fill after all concrete work is completed when forms are removed. * CONTRACTOR IS RESPONSIBLE FOR PROPER MEASUREMENT WITH SUBMITTED BID. * CITY OF LUBBOCK-BUILDING INSPECTION required PRIOR to pouring concrete *

b.7 EXTERIOR FINISHED CONCRETE: CONSULT PLAN FOR SIZES, AND LOCATIONS SIDEWALKS
* CONSULT THE PLANS*
Form up and pour concrete from the driveway to the front porch. INCLUDE a “RAMP” type pour up to the front door threshold. Include ALL of the sidewalk concrete on the front of the property. * Include a 4’ wide sidewalk AS REQUIRED PER LOT. FRONT - SIDES AND RAMPS IF REQ. *) CITY OF LUBBOCK-BUILDING INSPECTION REQUIRED PRIOR TO POURING CONCRETE.

PORCHES
* CONSULT THE PLANS*
Form up and pour concrete for porches. (See plan for porch sizes and dimensions)
* CITY OF LUBBOCK-BUILDING INSPECTION required PRIOR to pouring concrete *

b.8 WINDOWS AND DOORS
* CONSULT THE PLANS*
WINDOWS: INSTALLED BRICK TO BRICK.
NO EXTERIOR WOOD TRIM!
All windows installed are to be: DOUBLE-PANE, INSULATED GLASS LOW-E, VINYL FRAMED. (Maximum VALUES: U.A. - .30-.35 / S.H.G.C. - .30 - .35)
Include “DIVIDED - LITES” within the glass. (If desired by owner).
(FRAME COLOR: WHITE, ALMOND, BRONZE or IN-STOCK COLOR) Any other color selected by homeowner is subject to additional cost, PAID BY THE HOMEOWNER. Include SEALING the exterior sides with TAPE-SEALANT approved for the application of sealing off the building envelope. Include caulking, expando-foam and/or any other APPROVED SEALANT for the interior sides of the window locations.

NELCDC 1820 - E. HARVARD
NEW RESIDENTIAL CONST. Lubbock, TX
PAGE 4 of 16
b.8 WINDOWS AND DOORS (continued)

WINDOW INTERIOR: Finish out the interior sill and jambs using M.D.F. materials. Properly secure in place, plumb and level. (Router trimmed at the edges of the trim work)

BEDROOMS shall have at LEAST 1 window with the: MINIMUM SIZE: 36" x 60"

BATHROOMS: ALL GLASS IS TO BE OBSCURED !  (IF APPLICABLE)

Windows in bedrooms shall have a minimum opening of: 24" -Height and 20" - Width. Also, sill height cannot exceed 44" from the interior floor.

ALL BEDROOM WINDOWS SHOULD BE AT LEAST: 36" X 60".

b.8.b EXTERIOR DOORS:

(ALL EXTERIOR DOORS TO HAVE ALL LOCKSET AND DEADBOLTS KEYED ALIKE). FRONT DOOR: DECORATIVE, with an "ARCH" type of glass lite near the top end OR on the front, metal OR fiberglass finish.

HOMEOWNER DOOR ALLOWANCE: $ 400.00 (This includes all applicable taxes)

Pre-hung, solid core. Door to include all hardware. (Lockset, deadbolt, door stop, door viewer (if glass is not centered) and all hinges. 36" MINIMUM SIZE - 1 EACH

PAINTING: SPRAY ONLY (NO BRUSH OR ROLLER)

Paint the exterior doors, 2-coats OWNER TO SELECT COLOR. (NO PAINT RUNS!)

* DOOR TO THE GARAGE FROM THE LIVING SPACE: Should be at least 36" wide and MUST be a 20-minute FIRE-RATED DOOR. (* LISTED and LABELED). The door should also include all the hardware (stop, lockset and deadbolt). The door should also be finish - painted 2-coates. (Same specifications as listed above.)

b.9 STORM DOORS:

2 EACH

Over the FRONT exterior door, INSTALL A FULL-VIEW GLASS STORM DOOR.

1-1/4" thick storm doors with properly mounted door closures.

Storm door allowance - $300 (This includes all applicable taxes.)

* BACK DOOR: This storm door can be an operating glass sash with screen.

* Same specifications as listed above.

b.10 FASCIA, SOFFIT AND PORCHES (Include porch posts)* CONSULT THE PLANS*

NEW TEXTURED, PRE-COLORED METAL SIDING - COLOR CHOICE BY OWNER

Framing materials to be FLUSH, LEVEL AND PLUMB at all soffit, fascia, porch ceiling and porch post locations. Over all (gables included, IF applicable), fascia, soffit, porches and porch posts, install metal, colored and pre-finished painting siding. OWNERS CHOICE IN COLOR. Install securely in place, plumb and level. Include all trimmer pieces at all corners, doors and windows (if applicable). Caulk all seams and joints with matching caulking. (SCREW HEADS USED SHOULD BE TOUCHED UP WITH THE SAME MATCHING COLOR !)

* CONTRACTOR IS RESPONSIBLE FOR PROPER MEASUREMENT WITH SUBMITTED BID AND PLANS *

NELCDC
NEW RESIDENTIAL CONST.
1820 - E. HARVARD
Lubbock, TX

PAGE 5 of 16
b.11 FINISHED ROOFING: * CONSULT THE PLANS *
ROOFING - GENERAL REQUIREMENTS (FOR DWELLING UNIT)
NOTE: INSTALL 30-YEAR, LAMINATED - COMPOSITION SHINGLES
Unless otherwise specified, all material shall be new and match existing as closely as possible for material style, color and method of installation. Seal all edges. FLASH and caulk all adjoining surfaces and make weather-tight. Install ALL flashing, roofing accessories and nails using rust - resistant material. Install in one continues operation / pattern. Protect the house contents at all times from exposure to the elements.

DO NOT INSTALL COMPOSITION ROOF SHINGLES ON SLOPES LESS THAN 2:12. ROOFING - DWELLING UNIT
INCLUDE all NEW ROOF DECKING. *(Consult City of Lubbock-Building code for proper sized decking). Install 30 - LB. TAR PAPER and LAMINATED ROOFING SHINGLES (30-YEAR WARRANTY - MATERIALS), 1" x 2" drip cap, all new flashing at valleys and seams. Include the electrical weather-head install properly with flashing boot and on all other roof penetrations.
ATTIC VENTING: Install roof mounted ATTIC vents as required per attic size.
ROOFING: install 30-year, LAMINATED - COMPOSITION SHINGLES composition roof, according to manufacturers’ recommendations. Tar or Silicone all VISIBLE nail heads on all flashing ends and roof caps.

b.12 6’ CEDAR WOOD PICKET FENCE (2-SIDES, ALLEY AND BOTH FRONT AREAS)
* ENSURE THAT THE OUTDOOR A/C CONDENSOR IS FENCED IN *
* Ensure PROPERTY LINE OWNERSHIP. (BOTH SIDES, ALLEY and BOTH FRONTS). Install a 6’ CEDAR WOOD picket fence. Include all 3-wood rails, metal posts (at least 18” deep in concrete) at 8’ centers and 1” x 4” pickets. Include all anchors secured to wood rails.
METAL POST: To be cut the same height or lower as the finished fence and include post caps. (Metal posts in concrete at least 18”). Include 2-gates. (1-front and 1-on back to alley) 36” WIDE MINIMUM, properly braced with 3-heavy duty black hinges and locking / locking hardware. NAILING PATTERN FOR PICKETS: 2-Top, 1 or 2 - Middle, 2-Bottom
NOTE: DO NOT USE PRE-CONSTRUCTED FENCE PANELS *
* CONTRACTOR IS TO ENSURE THE PROPER MEASUREMENT. CONSULT PLAN SUBMITTED FOR LINEAR FOOTAGE OF FENCING *

b.13 FINISHED EXTERIOR SOIL GRADE
Bring in FINISHED TOP SOIL on the ENTIRE LOT. Ensure that the perimeter (NEAR THE HOUSE) has the proper grade, sloped out at least (6:10) wet and packed in place.

b.14 EXTERIOR PLUMBING
Service lines: DRAIN, SUPPLY and EXTERIOR WATER FAUCETS
MAIN DRAIN - SEWER LINE: Construct and install main drain and tie into the MAIN CITY SEWER DRAINAGE. Construct and install the main drain - sewer line. (Install according to the CITY OF LUBBOCK’S PLUMBING code). * INCLUDE CLEAN OUTS AS REQUIRED. (1-per side). MAIN WATER SUPPLY LINE: Construct and install main WATER supply and tie into the MAIN CITY WATER METER. Construct and install the main water supply line properly sized. (Install according to the City of LUBBOCK’S PLUMBING code)
Include exterior water supply faucets with ANTI-SIPHON DEVICES attached or incorporated on the faucet. FRONT of house and BACK of house. (FOR EACH SIDE)
c.1 EXTERIOR WALLS; INSULATION
* CONSULT THE PLANS*
Properly insulate ALL of the exterior walls using R-13 batt insulation or comparable if blown in place. Secure in place and include a vapor retarder over all the insulated walls (*WARM IN WINTER SIDE*)

c.2 INTERIOR WALL AND CEILING FINISH: SHEETROCK
Install sheetrock, secured in place, plumb and level over ALL WALLS AND CEILINGS through-out. TEXTURE (all walls and ceiling). CONSULT WITH HOMEOWNER ON TEXTURE TYPE!

b. BATHROOMS: 1-PIECE FIBERGLASS TUB WITH SHOWER SURROUND FOR EACH BATH.  SHOWER SURROUND. (* CONSULT THE PLANS*)
* Install the fiberglass tub and shower surround securely and plumb in place as specified in the plan. Caulk and seal all joints. Include a shower curtain rod secured in place over the tub opening.
* 1 PIECE - FIBERGLASS TUB-SHOWER UNIT FOR EACH BATH.  2-EACH

c.3 TRIM WORK: BASEBOARD AND ALL OTHER REQUIRED LOCATIONS
Install ALL new trim work at ALL locations. (Wall-baseboard, doors, and window locations) "COLONIAL TYPE" of trim. Install securely in place plumb and level. Caulk all joints seams and nail locations.

c.4 INTERIOR PAINTING: ALL ROOMS: WALLS, TRIM, INTERIOR DOORS
WINDOW TRIM, SILLS, INTERIOR CEILINGS AND CLOSETS.
NOTE: PAINT COLORS ARE LIMITED TO 2-COLORS (WALL, CEILING AND TRIM ON INTERIOR)
Remove items not to be painted and if being reinstalled, store on site. Prime all new wood installed. Prep all walls, ceilings, all trim all interior doors, and built-in wall cabinets. Finish with 2-coat LATEX painting. (SEMI-GLOSS SHEEN or other sheen as selected by the owner). Paint is to be of good quality. Examples are: Colony, Devoe, Sherman Williams, Kelly Moore, etc.

c.5 FLOOR COVERING
CERAMIC TILE FOR: KITCHEN, EACH BATH, HALL AREAS.
CERAMIC FLOOR TILE: (HOMEOWNER ALLOWANCE for selection @ $2.50-$3.00 P / SF
Tile Only, all applicable taxes included)
(BUILDER TO INCLUDE THIS ALLOWANCE ON THE OVERALL BID AMOUNT, TO INCLUDE THEIR LABOR, PROFIT AND OVERHEAD)

CARPETING: Install on all BEDROOMS, BEDROOM CLOSETS and LIVING ROOM. Install over a minimum medium density polyurethane of 1/2” pad with a minimum number of seams. GLUE DOWN the pad so it is secured in place.
Stretch out the carpet to eliminate puckers, scallops and / or ripples. Include all the tack strips secured in place. Include all the "hidden z-metal bar" edged strips over the transition areas of carpeting and tile.
c.5 FLOOR COVERING (continued)

CARPETING: * OWNERS choice of carpet color and pile.
(Carpeting allowance: $25 per square yard INSTALLED).

a. CERAMIC FLOOR TILE SPECIFICATIONS:
Over the NEW CONCRETE SLAB foundation floor, PREP and install NEW CERAMIC FLOOR tiles. Lay owners choice of $2.50-$3.00 per tile sq. ft. (includes taxes) CERAMIC floor tile in adhesive recommended for CONCRETE SLAB (THIN SET). Finish by installing OWNER SELECTED TILE GROUT in all joints and seams. Lay tile in a continuous pattern. Caulk baseboard / floor transitions. **(IF NECESSARY)**

c.6 ALL INTERIOR DOORS: "COLONIAL STYLE" INTERIOR DOORS OR 6-PANEL
ALL OPENINGS SHOULD BE AT LEAST 36". * SEE PLAN *

a. INTERIOR DOORS (SWING TYPE).
Install interior doors with new, pre-hung, 6-panel interior door units. Include all the hardware (hinges, locksets, door stops and door tracks for the pocket doors.) Install locksets at the MASTER bedroom and bath entry doors. Include all the new trim (both sides) installed securely in place, plumb and level. Trim door bottoms after the finished floor installation (IF necessary) to have at least 1/4" clearance. Prep and finish with 2-coat painting included above.

* CONSULT PLAN FOR THE NUMBER OF DOORS AND SIZE OF OPENINGS *
(36" openings for ALL PASSAGE, BEDROOMS, BATHROOMS, AND EXTERIOR.
UNLESS FRAMING PLANS REQUIRE SMALLER)

c.7 BATHROOM: LAVATORY CABINETS AND BATHROOM CABINETS OVER THE TOILET. Construct and install a new linen cabinet OVER THE TOILET. Include all shelving, wood cabinet doors, hardware (hinges and pulls). STAIN GRADE ALL WOOD. Finish: Stain and 2-coat clear varnish finish. * BOTH UNITS.

LAVATORY CABINET:
Purchase and install or custom build a new lavatory finished cabinet for each bathroom. Install securely in place, plumb and level. Include a new finished top, secured in place. (Marble or laminate). OWNERS CHOICE. Install securely in place plumb and level.

a. BATHROOM ACCESSORIES
- Towel bars for each bathroom: 2 - each
- Toilet tissue holder: 2-each
- DECORATIVE MIRROR: 2-each. ALLOWANCE: $75 (Includes taxes for each)

c.8 ALL INTERIOR CABINET WORK SPECIFICATIONS. * CONSULT THE PLANS
KITCHEN CABINETS, LAVATORY CABINETS, CABINETS OVER WASHER-DRYER, AND LINEN CABINETS. INCLUDE ALL CABINET LOCATIONS (BASE AND WALL)
Construct new WOOD cabinets (wall and base). NO FURR DOWN. (OPEN TOP) On the top ends of the cabinets, finish off with crown molding leaving the top exposed and open. All wood cabinet doors are to be RAISED PANEL. Cabinets are to be installed securely in place, plumb and level. Include all hardware (hinges/pulls) Install plumb and level. Include all drawers with metal drawer guides. FINISH: Stain and 2-coat varnish finish (OWNERS CHOICE OF STAIN FINISH) Include cabinets over the refrigerator and stove.

*NOTE: INCLUDE "BOXING-IN" the vent pipe for the vent hood over the stove. IF NECESSARY*
c.9 KITCHEN - COUNTER-TOP & BACK WALL LAMINATE
* CONSULT THE PLANS FOR LAYOUT
* BOTH UNITS:
  LAMINATE SHOULD BE ON THE WALL, FROM THE BASE CABINET
  TO THE WALL CABINET BASE OR INSTALL A 4" BACK- SPLASH .
Field measure and construct of 3/4" PLYWOOD BC (MDF materials are also acceptable) and with 1" x 2" edges. Screw down to base cabinet. Laminate to be (FORMICA / WILSON ART) on counter-top and backsplash, (backsplash- 1" x 4" minimum) with a MINIMUM number of SEAMS. Caulk all seams and edges. Caulk shall be neat and match color with top. Include a cut-out for a kitchen sink. (DO NOT BID PLUMBING HERE). OWNERS CHOICE OF COLOR AND PATTERN.

| c.10 APPLIANCES: MICROWAVE with BUILT-IN VENT HOOD. *CONSULT THE PLANS*
Purchase and install a NEW MICROWAVE with a BUILT-IN EXHAUST VENT HOOD that includes a CHARCOAL FILTER (RE-CIRCULATING TYPE, IF ELECTRIC)
**If gas stove is present, include installing a vent duct terminating to the exterior. The duct termination over the roof MUST terminate at least 12” and have a TEXAS PATTERN RAIN CAP.** Secure appliance in place over the STOVE. Properly make all connections and ensure proper operation.

**APPLIANCE ALLOWANCE: $350 (Includes taxes)**

| a. APPLIANCES; REFRIGERATOR. * ENERGY STAR* * CONSULT THE PLANS *
Purchase and have delivered a new REFRIGERATOR. Must be "ENERGY STAR RATED". Install in kitchen area designated for refrigerator installation. Properly make all connections and ensure proper operation. **APPLIANCE ALLOWANCE: $700 (Includes taxes)**

| b. APPLIANCES; FREE STANDING RANGE (ELECTRIC)
* CONSULT THE PLANS *
Purchase and have delivered a new kitchen RANGE (Electric). Install in the kitchen area designate for RANGE installation.
Include the "ANTI-TIP" device - bracket. Ensure proper operation of the burners and oven.

**APPLIANCE ALLOWANCE: $700 (Includes taxes)**

| c. APPLIANCES; AUTOMATIC DISHWASHER *CONSULT THE PLANS*
Purchase and have delivered a new DISHWASHER. Install in the kitchen area designated for DISHWASHER installation. Make ALL the plumbing connections (supply and drainage). For the drainage install a " BACK-FLOW DEVICE" on the kitchen sink OR create back-flow protection on the drain line by creating a "LOOP" in the drain line and securing it inside the cabinet HIGHER THAN THE OUT PUT OF THE KITCHEN SINK DRAIN. Include the electrical cord to the appliance properly connected. Connect the dishwasher and ensure proper operation.
Connect dishwasher and ensure proper operation.

**APPLIANCE ALLOWANCE: $450 (Includes taxes )**

| d. APPLIANCES; GARBAGE DISPOSAL
Purchase and have installed a new GARBAGE DISPOSAL, attached to the kitchen sink drain. Secure in place, include all the proper connections. (Plumbing and electrical). Operate the disposal and render in "properly operating condition".

**APPLIANCE ALLOWANCE: $100 (Includes taxes)**

<table>

* BUILD IS TO INCLUDE ALLOWANCES, ALONG WITH INSTALLATION AND LABOR.*
c.11 ATTIC ACCESS: FOLDING / DISAPPEARING STAIRCASE OR OTHER SCUTTLE HOLE * Location should be accessible*

In the ceiling, cut-out and frame out joists to install a new disappearing attic access stair-case. Install securely in place, plumb and level. Include the pull cord for access. Include trimming out the access. Prep and 2-coat finish painting, included above.

c.12 ALL OTHER ACCESSORIES AND ALLOWANCES

MINI-BLINDS FOR WINDOWS: Purchase and install blinds for all window locations

CABLE LINES: HOMEOWNER TO SELECT LOCATIONS
- UP to 2 Cable line locations

PHONE LINES: HOMEOWNER TO SELECT LOCATIONS:
- UP to 2 Phone LAND line locations, IF DESIRED BY THE OWNER.

c.13 ATTIC INSULATION: BLOWN IN PLACE - FIBERGLASS INSULATION R-38 (18")

* Install some type of blocking around the access so insulation does not fall out when the access is opened. Blow in R-38 per manufacturer's specifications, approximately 18" depth.

Use FIBERGLASS INSULATION BLOWN IN PLACE.
INSTALL INSULATION MARKERS EVERY 300-SF (At least 3 per unit)
STAPLE INSULATION CERTIFICATION TO NEAREST CEILING RAFTER NEXT TO ACCESS.

IV. HEATING AND AIR CONDITIONING

D. HVAC GENERAL REQUIREMENTS

Unless otherwise specified, all materials shall be new. Equipment shall operate safely without leakage, noise or vibration. All penetrations of building components shall be neat, sleeved and stopped and shall not compromise structural integrity. Install escutcheon plates at ALL pipes passing through walls. (combustion tubes, vent pipe, refrigeration lines, etc.)

d.1 CENTRAL HEAT - A/C SYSTEM

*CONSULT THE PLANS FOR LOCATION * ELECTRIC HEATING. VERTICAL INSTALLATION SPECIFICATION.

CENTRAL HEATER: HEAT PUMP and EMERGENCY HEAT - KW Air Conditioning (COOLED): Minimum SEER - 14

Vertically installed furnaces are to be installed on a raised return air stool with as large as allowable return air. (APPROXIMATELY 1-SQ.FT. OF RETURN PER TON. Include ALL RETURN AIR grills properly placed and properly sized . The FURNACE is to be mounted on an EASY ACCESS FILTER BASE, CONDENSATE DRAIN LINES ARE TO BE RAN TO THE EXTERIOR OR TO AN APPROVED DRAIN.

Have a TEXAS Licensed ELECTRICIAN, run service wiring to the new HEAT SYSTEM for the blower AND UNIT with the proper required DISCONNECT BY THE UNIT.

* PROVIDE AT LEAST 2-ADDITIONAL REPLACEMENT FILTERS AND LEAVE NEAR THE HEATING UNIT.

Include all the electrical work required associated with the NEW INSTALLATION (Outdoor disconnect properly breaker protected, closet outlet for blower power and UNIT.

*continued on the next page*
d.1 CENTRAL HEAT - A/C SYSTEM

"CONSULT THE PLANS FOR LOCATION* ELECTRIC HEATING. VERTICAL INSTALLATION SPECIFICATION.

CENTRAL HEATER: HEAT PUMP and EMERGENCY HEAT - KW
Air Conditioning (COOLED): Minimum SEER - 14

* AIR CONDITIONING COMPONENTS:
Include a new line set & condensate drain line for the a/c. Seal the exterior wall where the line set penetrates. The new outdoor condensing unit is to be placed on a pad that is at least 3" above the grade. Include the electrical disconnect properly wired in and weather protected. Breaker protect the A/C system in the electrical panel box, independently, sized recommended by the equipment listing.

Include charging up the central system with refrigerant to the manufacturers' recommended operating pressures. Operate the central a/c and check air supply temperatures and return air temperatures. Industry standards state acceptable air temperature to be between 15-20 degrees differences from supply to return air, with 20-degree difference being the best / OPTIMUM. Operate the central FURNACE and render the new unit, safe and properly operational. Include complete installation with a NEW plenum of 18". Include a new THERMOSTAT, FILTER and RETURN AIR GRILLS. * STANDARD THERMOSTAT.*

HEAT: HEAT PUMP WITH (KW) ELECTRIC EMERGENCY HEAT:

AIR CONDITIONING (COOLED): SEER - 14 or better:

d.2 DUCT WORK: ALL NEW

Duct tape NOT ALLOWED for securing ducts in place.

All ducting is to be new unless otherwise specified by the inspector. All ducts, plenum and register boxes are to be INSULATED (R - 6 or BETTER). Any tap made into a plenum or trunk line is to be made "AIR TIGHT" and with a start collar. All flex duct connections are to be made with duct ties and approved H.V.A.C. TAPE AND MASTIC. Register boxes are to have SHEET METAL elbows screwed and taped. Plenum connections made to the furnace shall be "AIR TIGHT" and taped. All new plenums and trunk lines must be of DUCT BOARD and shall be Stapled and Taped. Include all the air supply registers including in each bathroom (included as turn-key price).

INCLUDE PROPERLY SIZED RETURN AIR

V.

E. PLUMBING (ALL PERMITS APPLY)

PLUMBING: SUPPLY, DRAINS and VENTS: INSTALL ACCORDING TO THE CITY OF LUBBOCKS’ PLUMBING CODE.

* CONSULT THE PLANS FOR LOCATION *

e.1 HOUSE DRAINS and MAIN YARD DRAIN LINE:

* ENSURE ALL THE PRO-RATE FEES (CITY) ARE INCLUDED AND ACCOUNTED FOR IN THIS BID!

All DRAIN LINES are to be PROPERLY SIZED to EACH LOCATION.

Ensure all sewer drain lines are installed according to the CITY OF LUBBOCKS’- PLUMBING CODE.

* Kitchen sink drain and vent, - Utility room, washer drain and vent, - Bathroom location drains and vent. (1 or 2 as specified by the plan), - Water heater - heating closet drain and vent. INCLUDE A MAIN CLEAN OUT AT: Kitchen sink location, Washer drain location and EXTERIOR Main yard location, at least 3’ from the house and, within the next 100’ until the main sewer line drop.

**LAVATORY FAUCET ALLOWANCE: $100, includes taxes for each. (TIMES 2-BATHROOMS)**

---

**e.7 DRYER VENT:**

*CONSULT THE PLANS FOR LOCATION*

THROUGH THE WALL (HORIZONTALLY) TERMINATING OUTSIDE THE HOUSE

Install a new dryer vent duct (rigid metal) terminating to the exterior on the outside (Wall). Include the exterior draft cap. SECURED IN PLACE. (RIGID METAL DUCT)

*Note: If the dryer vent terminates over the roof, the duct should still be RIGID - METAL, (DO NOT USE SCREWS TO SECURE DUCT JOINTS IN PLACE)*. Over the roof include the flashing and duct rain cap.

---

**e.8 WASHER BOX for WASHER AREA:**

*CONSULT THE PLANS FOR LOCATION*

RUN NEW HOT and COLD water supply to the NEW washer box location. Plumb- in a new washer box and hot / cold water valves and drain line. Complete box installation securely in place, plumb and level. Include the trim on the box.

**TOTALS FOR FIXTURE ALLOWANCE: $725.00**

*BUILD IS TO INCLUDE ALLOWANCES, ALONG WITH INSTALLATION AND LABOR.*

---

**VI. ELECTRICAL (ALL PERMITS APPLY)**

**ELECTRIC--GENERAL REQUIREMENTS: MUST MEET LOCAL ELECTRICAL CODE**

All materials shall be new unless otherwise specified, and UL approved and/or National Electrical Code rated. All drilling, cutting and fastening shall be neat and true. All patching shall match the existing or surrounding surface.

---

**f.1 MAIN ELECTRICAL SERVICE:**

*CONSULT THE PLANS FOR LOCATION*

**ELECTRICAL SERVICE: 100-AMP Service (MINIMUM). MAIN SERVICE PANEL:**

*UNDERGROUND ELECTRICA SERVICE SUPPLY FROM THE ALLEY TRANSFORMER*

Install 150 - amp single phase, 3-wire electric service. Include a main disconnect (150-AMP or as recommended by the TX. LICENSED ELECTRICIAN, (with a properly sized wire).

Include a 20-circuit panel board (or appropriately sized for the house with some expansion), meter socket, service head, service cable, ground rod and with all new breakers sized properly.

*(IF THERE IS ANY ALUMINUM WIRING, WIRING MUST HAVE ANTI-OXIDANT COMPOUND ON THE TERMINAL CONNECTIONS)*

*(IF OVER-HEAD SERVICE DELIVERY, Ensure that the FLASHING is installed BELOW THE SHINGLES, AND THE SERVICE WEATHERHEAD is to be over the roof with PROPER HEIGHTS.) Consult the City of LUBBOCK-ELECTRICAL CODE.*

CIRCUITS AT BREAKERS ARE NOT ALLOWED TO BE DOUBLED - UP!

**GROUNDING: Main GROUND ROD and grounding connected to the foundation STEEL.**
